

A glorious truth awaits as we're guided towards the sky  
Projecting through the clouds, I become one with time  
Show me how, show me why  
Show me how we came to be  
I search for the answers that I will never see  
Take me away, far from this place  
Where my life could be meant for more... For something great  
But as of now, we will never find  
What, what it is we seek  
What we seek  
Like a sculptor to his creation, we must use our imagination  
Ready to guide my way  
Ready to guide my way  
And this is where I've been left to be, on a barren road  
That doesn't end  
I am ready to leave this all behind  
Let me see  
Please let me see  
I am ready to leave this all behind  
Let me see  
What is my purpose, what do you want of me?  
Show me a sign  
Show me a way  
Show me who I am meant to be  
Let me see
