

## Vultures

Cursive

Whatcha gonna do when the vultures circle round?  
You donned your mask but they still sniff you out  
The party's over, it's a search party now  
Torches and pitchforks climb the hill to your house

Whatcha gonna do when they come for you and  
Your old friends are turning you in?  
What'd you do, to make 'em come for you, huh?  
I don't wanna know what you done
