

Everything Hank Did

Curtis Grimes

I've done everything Hank did but die
And it ain't because I did not try
But sometimes it amazes me that I got out alive
'Cause I've done everything Hank did but die

Ole Hank was my hero, since I was a kid
And I grew up relivin' all the crazy things he did
Whiskey drinkin', honkey tonk singin', staying up all night
Living hard and dyin' young was just a way of life

I've done everything Hank did but die
And it ain't because I did not try
But sometimes it amazes me that I got out alive
'Cause I've done everything Hank did but die

I didn't know how dangerous that lost highway could be
'Til one too many whiskey binges brought me to my knees
I saw the light that very night, ole Hank is still the king
But I found out that I don't have to kill myself to sing

I've done everything Hank did but die
And it ain't because I did not try
But sometimes it amazes me that I got out alive
'Cause I've done everything Hank did but die

Sometimes it amazes me that I got out alive
'Cause I've done everything Hank did but die
