

## Fine By Me

Curtis Grimes

I watched you change 15 times  
Make up your hair and change your mind  
But that's fine by me  
From a low cut dress and high heeled shoes  
To a white T-shirt, jeans and boots  
It's all good  
You look fine by me

You'd think my car was some old classic  
The way heads turn when we're in traffic  
You there in that seat  
Looking so fine by me  
When we're together  
Even I look better  
With you hanging on my arm for the world to see  
Looking so fine by me

I know tonight you're gonna blow my mind  
And in the yoga pants it fits so tight  
And maybe that's fine by me  
I know when you blow that candle out  
What's coming next, what's going down  
You wrapped up in them sheets  
Looking so fine by me

You'd think my car was some old classic  
The way heads turn when we're in traffic  
You there in that seat  
Looking so fine by me  
When we're together  
Even I look better  
With you hanging on my arm for the world to see  
Looking so fine by me

You'd think my car was some old classic  
The way heads turn when we're in traffic  
You there in that seat  
Looking so fine by me  
When we're together  
Even I look better  
With you hanging on my arm for the world to see  
Looking so fine by me, yeah  
You're looking so fine, so fine  
So fine by me
