

Honeycomb

Curtis Grimes

I can't tell what's going on girl but everytime
I get around you the sky turns blue and the sun shines like the
summertime
I can't resist those amber eyes so sweet
Little lollipop lips that tempt me like a pretty wild flower to
a bumblebee

Yeah I could kiss you
But baby don't you know if I kissed you
I'd be on you like a tattoo
Locked to your lips and hooked to your hips
If I ever get a bit of your honey
Good luck gettin' rid of me
I'd be buzzin' round you all night long
Tryna get to honeycomb

Baby we can keep on chugging along the way it's been
I can stay on my side and never cross the line of just friends
But then again if I get a green light like a GTO on that open r
oad
We can out the pedal down, and you can throw that just a friend
stuff out the window

Yeah I could kiss you
But baby you know if I kissed you
I'd be on you like a tattoo
Locked to your lips and hooked on your hips
If I ever get a bit of your honey
Good luck gettin' rid of me
I'd be buzzin' round you all night long
Tryna get to honeycomb

Yeah I could kiss you
But baby you know if I kissed you
I'd be on you like a tattoo
Locked to your lips and hooked on your hips
If I ever get a bit of your honey
Good luck gettin' get rid of me
I'd be buzzin' round you all night long
Tryna get to honeycomb

Yeah if I ever get a bit of your honey
Good luck gettin' rid of me
I'd be buzzin' around you all night long
Tryna get to honeycomb
I'd be buggin' you all night long
Tryna get to honeycomb
