

Irresponsible

Curtis Grimes

Well she told me she loved me but I needed to grow up
That I was bein' irresponsible last night at the Blind Pig Pub
And I said you know what

There ain't nothin' wrong with bein' irresponsible
Completely unpredictable and highly dysfunctional
When you're out with your buddies on a Saturday night
You can say what you want and do what you think
Toast to anything and have a drink on me
Gettin' through life's gonna seem impossible
But ain't nothin' wrong with bein' irresponsible

There were fourteen beer cans on my kitchen table this mornin' when I woke u
p
So I warmed up a Hot Pocket, threw it in my lunch box and headed on off to w
ork
About a mile down the road my old engine overheated
I was seven thousand miles past the oil change I needed
I hitched me a ride to the Water Hole Saloon
Cause work's overrated and the beer's past due

There ain't nothin' wrong with bein' irresponsible
Completely unpredictable and highly dysfunctional
When you're out with your buddies on a Saturday night
You can say what you want and do what you think
Toast to anything and have a drink on me
Gettin' through life's gonna seem impossible
But ain't nothin' wrong with bein' irresponsible

We had a show last night in deep East Texas
Way outta hand half the people got arrested
The owner stumbled up in his drunken rage
He slapped me on the face and this is what he had to say
Your drummer can't play your fiddle player's layin' down
Hell, even Ray Wylie Hubbard wouldn't even stick around
I picked up my Bud Light I walked off the stage
We loaded up the gear but we didn't get paid

There ain't nothin' wrong with bein' irresponsible
Completely unpredictable and highly dysfunctional
When you're out with your buddies on a Saturday night
You can say what you want and do what you think
Toast to anything and have a drink on me
Gettin' through life's gonna seem impossible
But ain't nothin' wrong with bein' irresponsible

I may not make it anywhere on time
And I may not have anything to call mine
I know she'll leave if I don't change
But that's fine with me

Because there ain't nothin' wrong with bein' irresponsible
Completely unpredictable and highly dysfunctional
When you're out with your buddies on a Saturday night
You can say what you want and do what you think
Toast to anything and have a drink on me
Gettin' through life's gonna seem impossible

But ain't nothin' wrong with bein' irresponsible

Gettin' through life would be impossible

Nobody said you had to be likable

Seems like you're doin' somethin' awful

But there ain't nothin' wrong with bein' irresponsible
