

# Longer

Curtis Grimes

You're thankin' me for dinner and you start to put your jacket back on

You gotta big day tomorrow and you say you probably oughta go home

Yeah I know it's half past 11  
But baby just hold up a second

It seems like you just got here  
Baby where'd the night go?  
Funny how the time flies  
Honey when I hold you close  
Why don't you drop those car keys?  
You don't really wanna leave, do ya?  
When the radio's playin' our song girl  
Come on girl  
Stay a little longer

It's 1:30 in the mornin' and you say you're really leavin' this time

So I walk you to the door and we say our six or seven goodbyes  
You ain't gotta be in such a rush

I think I've even got an extra toothbrush

It seems like you just got here  
Baby where'd the night go?  
Funny how the time flies  
Honey when I hold you close  
Why don't you drop those car keys?  
You don't really wanna leave, do ya?  
You go on and make yourself right at home girl  
Come on girl  
Stay a little longer

Now the morning sun's shinin' on your face  
But I'd love to keep you in this bed all day

It seems like you just got here  
Baby where'd the night go?  
Funny how the time flies  
Honey when I hold you close  
Don't pick up those car keys  
You don't really wanna leave, do ya?  
Would sleepin' in with me be so wrong girl?  
Come on girl  
Stay a little longer  
Stay a little longer
