

Memories

Curtis Grimes

Another Friday night playing on the radio
Cheatum Street is closing now there's nowhere else to go
12 pack of long necks and hill country road
Heading out to Wimberly down devil's backbone

Sometimes you gotta walk a straight line
DPS just saw the bottle hit the sign

I know we'll have no worries tomorrow
I know we may have a few regrets
But in this crazy life that I'm living
I'll make some memories that I'll never forget

Randy Rogers playing down in old Gruene Hall
Grab a couple more 'fore they holler last call
Bars are closing down, girls are headed home
Time for ranch road 12 and Texas country songs

Sometimes you gotta walk a straight line
DPS just saw the bottle hit the sign

I know we'll have no worries tomorrow
I know we may have a few regrets
But in this crazy life that I'm living
I'll make some memories that I'll never forget

The sun's coming up and we're heading back home
Another long night of having fun all wrong
Workin' all day just to pay my rent
But when quitting time comes we'll be at it again

Sometimes you gotta walk a straight line
DPS just saw the bottle hit the sign

I know we'll have no worries tomorrow
I know we may have a few regrets
But in this crazy life that I'm living
I'll make some memories that I'll never forget

I know we'll have no worries tomorrow
I know we may have a few regrets
But in this crazy life that I'm living
I'll make some memories that I'll never forget
I'll make some memories that I'll never forget
