

Right About Now

Curtis Grimes

Well you were in the right and she was in the wrong
And sometimes a man's gotta stand on principle
You watch her drive away and now that she's gone
You really kinda miss her but you don't wanna let her know

And all you have to do to bring her back is apologize
But hey what's a fella got if he ain't got his pride

Right about now she's out on the town
Without a reason not to be havin' her a good time
And right about now one of your pals
Is buyin' her a third round of apple pie moonshine
You bit the bullet you stuck to your guns
And I bet by golly you're proud
Cause you sure got somethin' to be right about now

Oh changin' like the wind that's how you say she is
Can't make a point without gettin' all emotional
And ain't it like a man to use his common sense
The primal epitome of practical or logical

You made a solid case you litigated you sure told her ha yeah you did
Well by the looks of things ha she thinks she might have got the final
word

Cause right about now she's out on the town
Without a reason not to be havin' her a good time
And right about now one of your pals
Is buyin' her a fourth round of apple pie moonshine
You bit the bullet you stuck to your guns
And I bet by golly you're proud
Cause you sure got somethin' to be right about now

If you think she's out to do you wrong
Well you just might be correct
Cause you drew that line and she crossed it
I think you got yourself an ex

Cause buddy right about now she's out on the town
Without a reason not to be havin' her a good time
And right about now one of your pals
Is buyin' her a fifth round of apple pie moonshine
You bit the bullet when you stuck to your guns
And I bet by golly you're proud
Cause you sure got somethin' to be right about now
Yeah you sure got somethin' to be right about now

She's gettin' right right about now
