

Who Knew

Curtis Grimes

Who knew one little moonlit kiss
On a starry Texas night like this
Would knock this cowboy outta his boots, who knew
That a one night thing would forever change
When a blue-eyed angel layed her claim
On a man like me with a heart on the loose, who knew

Who knew she'd still be waking up in my arms
Two years later at the break of dawn
And the hands of grace would change the fate
Of two young restless hearts on the run
Having fun, and we still do, baby who knew

Who knew I'd get down on one knee
Taking the hand of the best looking thing
This plowboy town is ever gonna see who knew
That first slow dance and sweet romance
Was just another part of a master plan
Now there's rice on the ground and a car pulling cans who knew

Who knew she'd still be waking up in my arms
Two years later at the break of dawn
And the hands of grace would change the fate
Of two young restless hearts on the run
Having fun, and we still do, baby who knew

How fast life would fly
With her there by my side
To my surprise yeah she's got me
Thinking 'bout maybe making plans for three
Who knew

Who knew she'd still be waking up in my arms
Two years later at the break of dawn
And the hands of grace would change the fate
Of two young restless hearts on the run
Having fun, and we still do, baby who knew
Baby who knew
Well I didn't know, maybe you did
Baby who knew
