

# Banh Me

Curtis Harding

I wanna know, know when you notice  
I wanna see, see that you care  
I wanna tell you all that I hope it's  
That you'll always, always be there

When I'm not there, I wanna be  
I was blind, now I see  
When I'm not there, I wanna be  
I was blind, now I see

Wherever I go, I see your face, honey  
With every heartbeat, my love for you grows  
I daydream of starlight that brings so much laughter  
But when I awake, I'm so far from home

When I'm not there, I wanna be  
I was blind, now I see  
When I'm not there, I wanna be  
I was blind, now I see

She put a spell on you  
Greatest story ever told  
How will you make it through?  
Now your heart is growing cold  
She put a spell on you  
Greatest story ever told  
How will you make it through?

When I'm not there, I wanna be  
I was blind, now I see  
When I'm not there, I wanna be  
I was blind, now I see

Every moment apart feels like a lifetime  
But your love lights my path home  
It's alright to know when you're hurting  
And there's one thing that's for certain  
That I'm coming, won't be too long

When I'm not there, I wanna be  
I was blind, now I see  
When I'm not there, I wanna be  
I was blind, now I see

She put a spell on you  
Greatest story ever told  
How will you make it through?  
Now your heart is growing cold  
She put a spell on you  
Greatest story ever told  
How will you make it through?

When I'm not there, I wanna be  
I was blind, now I see  
When I'm not there, I wanna be  
I was blind, now I see

When I'm not there, I wanna be  
I was blind, now I see  
When I'm not there, I wanna be  
I was blind, now I see
