Can't Hide It

Curtis Harding

If I don't smile when you're walking by
It's because I can't live a lie
Spent so much time being blue
Just holding my head thinking of you

And I can't hide it
It's true
I only want you
Let's make it right now
Just us two
Cause I only want you

If I don't go where you want me to
It's because I can barely move
From bending down down on my knees
Begging you just to take me please

And I can't hide it
It's true
I only want you
Let's make it right now
Just us two
Cause I only want you

You can see it in my face
Don't walk away
Don't walk away
When you leave I break down
You're more than words what can I say?
What can I say?
Except that I need you around

And I can't hide it
It's true
I only want you
Let's make it right now
Just us two
Cause I only want you

And I can't hide it
It's true
I only want you
Let's make it right now
Just us two
Cause I only want you
