

It's Not Over

Curtis Harding

You may think it's over
But it's not the end
We've been through too much now baby
To just give in
Though life has its struggles
And its ups and downs
See you are a fighter baby
It's only the first round

So don't you cry
Dry your tears
We'll get by
Have no fear

For you I will swim the ocean
And yes I still love you
For you I will change the notion
And yes I still love you

Don't you cry no more

You make me pretend now
But it's not the end
I'm having too much fun baby
We've only begun
See life can be hard sometimes
With its highs and lows, yeah
But you are my queen baby
So come take your throne

And don't you cry
Dry your tears
We'll get by
Have no fear

For you I will swim the ocean
And yes I still love you
For you I will change the notion
And yes I still love you

Don't you cry no more

For you I will swim the ocean
And yes I still love you
For you I will change the notion
And yes I still love you
