

# Keep On Shining

Curtis Harding

It's just a matter of time  
The world has to know  
This light of mine  
I'm gonna let it show

In my darkest days  
She is my sun  
In all of the ways, girl  
You are the only one

So just keep on shining  
Keep on shining  
Keep on shining  
Just keep on shining

Keep on shining

I can finally see the light  
I can finally see the light  
I can finally see the light

It's the light in your eyes  
That gives this space  
I'll be more than wise, girl  
To allow your love to place

All the worries of days  
Heart ache and pains  
Your is body good, girl  
Enough to keep me sane

So just keep on shining  
Keep on shining  
Keep on shining  
Just keep on shining  
Keep on shining

I can finally see the light  
I can finally see the light  
I can finally see the light

So just keep on shining  
Keep on shining  
Keep on shining  
Just keep on shining  
Keep on shining

I can finally see the light  
I can finally see the light  
I can finally see the light
