

## Next Time

Curtis Harding

We could've went to heaven  
Put you in your place  
Now we're somewhere else  
Outer space  
I'm staring in the mirror  
I broke the fucking glass  
Now we're somewhere else  
Living in the past

When we travel on  
Get away from you  
With a little faith and some follow through  
I will see you there  
We could start again as a love affair  
Or just as friends  
When we travel on  
Get away from you  
With a little faith and some follow through  
I will see you there  
We could start again as a love affair  
Or just as friends

Until next time  
Until next time  
Until next time  
Until next time

They say it's never over  
They say it's never fair  
I don't know if that's true  
I don't even care  
Cause I'm focused on my future  
I've settled on the past  
I done changed some things, girl  
Since you've seen me last

When we travel on  
Get away from you  
With a little faith and some follow through  
I will see you there  
We could start again as a love affair  
Or just as friends  
When we travel on  
Get away from you  
With a little faith and some follow through  
I will see you there  
We could start again as a love affair  
Or just as friends

Until next time  
Until next time  
Until next time  
Until next time

(See you later, bitch)
