

Running Outta Space

Curtis Harding

Running out of space, been trying to get away sometime
A beautiful place is hard because of my mind

I'm running out of space, living in some ways without love
I could never replace your touch
Running out of space, been trying to get away sometime
Find a different place where we can relax, unwind

I'm running out of space, living in some ways of love
I can never replace your touch, no

Running out of space, been trying to get away sometime
A beautiful place says, "Paint the walls of my mind"
I'm running out of space, living in some ways without love
I can never replace your touch, no

Running out of space
Running out of space
Running out of space
Running out of space
