

# So Low

Curtis Harding

How did I get so low  
I never should have let you down  
Just like the time before  
Now you won't come around

I'm drowning inside  
No place now to hide  
I have to decide

My homies say they got the key  
And it's gonna pick me up before I'm a casualty  
I hit the bar  
To fill my cup

I take it to the head  
Wish I was in bed  
With my baby instead

I get so so high so low  
I can touch the sky with no try  
Why do I get down just  
To get high

I get so so high so low  
I can touch the sky with no try  
Why do I get down just  
To get high

I'm wide open on the 10 touch  
Fire and you'll get burned  
You don't drown by falling in  
But you will if you stay submerged  
I'm hitting the gas  
Can't live in the past  
How long will this last?

Pull up in a cloud of smoke  
I see love in the neon lights  
If you're here with your  
Friends I don't know but I just might  
Take another to the head  
Wish I was in bed with my baby instead

I get so-so high so low  
I can touch the sky with no try  
Why do I get down just to get high high  
I get so so high so low  
I can touch the sky with no try  
Why do I get down just to get high

I get so so  
So so high  
So low
