

# The Drive

Curtis Harding

Take it slow, baby  
Or lose to my heart, well  
I said "You'll never find your way  
Driving through the dark," No you won't

Ignore my direction  
Neglecting all the signs  
That's why love leads you astray  
Every single time, yes it does

She wanna ride with someone all the way  
She wanna drive with someone who gonna stay  
And by the time they get there  
She'll have someone to share  
All the things that they saw  
Along the way

I said youre moving too fast baby  
Scares me every time, yes it does  
So I'm hitting the brakes, baby, well  
Because you're steering out of line

See, it's my car baby, it's my car  
So I'm taking to the wheel  
I'm driving now girl  
Tell me how it feels

She wanna ride with someone all the way  
She wanna drive with someone who gonna stay  
And by the time they get there  
She'll have someone to share  
All the things that they saw  
Along the way

Slow it down now, girl  
Slow it down now, baby

Slow it down now, girl  
Slow it down now, baby
