# The One

**Curtis Harding**

Trying to understand
Just what it takes
To be the only man
But my first mistake
Was trying to erase
But I can't take his place
There was love that you gave
That I won't know but you're loving me now and I won't go
I know loneliness
But I'm gone try my best
To be all that you need
And a good friend
And you're all that I need
Babe and then some

I'm the one
Baby I'm the one
Baby I'm the one you need

Now that we're alone
How can I prove
That I'll be here for all time
'Cause I can't lose you
I know I made mistakes
And those can't be erased
There was love that you gave that I won't know
But you're loving me now
And I won't go be
I know loneliness
But I'm gone try my best
To all that you need
And a good friend
And you're all that I need
Babe and then some

I'm the one
Baby I'm the one
Baby I'm the one you need
