

## Time

Curtis Harding

I'm thankful for the things you do  
Cause right outside they'll put a curse on you, oh lord  
And I can see it, when the skies are grey  
It might be dark but God it's okay, oh lord  
And I knew it, I could read the stars but right outside  
God you kept my heart, oh lord  
And I never thought I would get so low  
You pick me up off that killing floor let's go

All you got to do is believe  
Stand on up and say it again  
Long as you got the ability  
You'll win

Time is all we need  
I'll make you believe  
Time is all we need

Don't give up on what you have  
Because what you got they might lack, I know  
There's a better way for us to be  
Cause what you plant is what you reap and sow  
To the lonely ones that've been through hell  
Help yourself by helping someone else, oh lord  
And I feel better when you're around  
I know whassup but what's going down, oh God

All you got to do is believe  
Stand on up and say it again  
Long as you got the ability  
You'll win

Time is all we need  
I'll make you believe  
Time is all we need

All you got to do is believe  
Grab a hand of a friend yeah  
All you need is ability again  
All you got to do is believe  
Stand on up and say it again  
I'm so happy and I'm free again  
All you got to do is believe  
Stand on up and say it again  
All you need is ability  
You'll win
