

# Welcome to My World

Curtis Harding

Well hello

Welcome to my world baby  
The ceiling is our sky  
I see the stars above you  
And I um hmm  
Welcome to my world baby  
The sun shines in your eye  
I feel the warmth again of you  
And I um hmm

Baby, look at the stars  
I've never seen a place like this before  
It's so beautiful  
Don't you wish we could stay here forever  
Can we go down there  
It looks so beautiful  
I'm so happy we're alone

Welcome to my world baby  
The ceiling is our sky  
I see the stars above you  
And I um hmm  
Welcome to my world baby  
The sun shines in your eye  
I feel the warmth again of you  
And I um hmm

Oh baby, keep doing that  
You're gonna put me over the edge  
I'm so happy we came together

Welcome to my world baby  
The ceiling is our sky  
I see the stars above you  
And I um hmm  
Welcome to my world baby  
The sun shines in your eye  
I feel the warmth again of you  
And I um hmm

Welcome to my world baby  
Welcome to my world baby

Don't ever let anyone take me away  
We gotta stay like this forever  
Just you and me
