

## Where's the Love

Curtis Harding

What if one day  
Love couldn't be found  
You search the highest mountain  
Even looked underground  
You couldn't quite prove it  
As a natural fact  
It just up and vanished  
With no sign of coming back

Where is the love?  
Where is the love?  
Where is the love?  
Where is the love?

And what of lost love  
It's just a point of view  
A world covered in darkness  
Despair and disease too  
The science of pathology  
Couldn't even explain  
The effects to our bodies  
The feeling of disdain  
An insatiable hunger  
No one or nothing could fill  
A deep bottomless hole  
A real raw deal  
It's only because of love  
That I'm obliged to tell  
That if we ever lost it  
This would be a living hell

Where is the love?  
Where is the love?  
Where is the love?  
Where is the love?

What if the loss of  
Made the earth quake  
The moon pull the tides  
For all love's sake  
It's only because of my love  
I feel I should say  
That if I ever lost it  
I wouldn't care anyway

Where is the love?  
Where is the love?  
Where is the love?  
Where is the love?
