

## With You

Curtis Harding

It's no fun here when you're alone  
There's no sun here nothing has grown  
Where do we go to get away?  
How do we know when to stay?  
Soon as we find a space I want to celebrate

If we could leave today  
I would just sail away  
With You  
The sun shines bright  
With you  
You are my light  
With you  
I'm never alone  
With you  
I'm already home

It's so fun here who would've known  
Were over run here the flowers have grown  
It's beautiful today  
Let's go find a way  
Soon as we find a space I want to celebrate

If we could leave today  
I would just sail away  
With you  
The sun shines bright  
With you  
You are my light  
With you  
I'm never alone  
With you  
I'm already home
