

When We're Alone

Curtis Mayfield

When we're alone
Stripped of your touch and feel down in my bones
Such a loving ways
And a warm embrace
Tender in your eyes
Twinkling stars over dark black velvet skies
Such a lovely treat
To give the one you meet
Do you mind if I try
To compete for the seat
Of your luck luck luck lucky guy
Oh it would be so mellow
If I could be that fellow
Just say you really love me
Ooooh
Could this be true
One thing baby baby baby
Oh I might be a little bit crazy but
I just feel that I love you so much
I can't help myself
No no no no
Without you baby I don't believe there's nothing left
Knowing how you please me
Take my hand and squeeze me
Just trying to be real

Trying not to mislead you with these words
And how I feel
Oh I'm a slow beginner
You make me feel a winner
Just say you really love me
Ooooh ooooh
Could this be true
I need you and I need you
Baby make me something more than me
(?) this whole thing to be
When we're alone
Stripped of your touch I can feel down in my bones
Oh such loving ways
And a warm embrace
Just say you really love me
Ooooh ooooh
Could this be true
One thing babe babe baby baby
Oh I might be a little bit crazy but
I just feel like I love you so much
Do you mind if I try
To compete for the seat
Of your luck luck lucky guy
Oh it would be so mellow
If I could be that fellow
