

It Amazes Me

Curtis Stigers

My height, just average
My weight, just average
And my I.Q. is like you'd estimate
Just average

But evidently, She does not agree
Consequently, If I seem at sea

It amazes me
It simply amazes me
What she sees in me
Dazzles me, dazes me
That I've learned to clip my wings

And soften my ways
These are ordinary things
Unworthy of praise

Yet she praises me
Just knowing I'd try for her
When so many would
If they could, die for her

I'm the one who's worldly wise
And nothing much fazes me
But to see me in her eyes
It just amazes me
