

Oh, How It Rained

Curtis Stigers

If you see cloudy sky
and there're no moon out tonight
And that's when hold my head in shame

Cause i remember when you left me
and oh, how it rained
Cause I remember when she left me
and oh, how it rained, it rained, yeah
Rain, rain, rain

And when the wind is blowing high
Underneath the darkened sky
And the benches bust my window pain
Oh I remember when she left me
And oh, how it rained, it rained
Yes I remember when you left me
And oh, how it rained, it rained
Muddy streets to ruin my shoes
I just can't get over you
Seems like a walk is the only thing to do
Oh I remember when you left me
And oh, how it rained, it rained
Come on, uh, uh
It just rained, rained, rained, rained
It didn't rain, it didn't rain,
Yes it rained, rained, rained, just rained
Cause I remember when she left me
and oh, how it rained, it rained, yeah
Rain, rain, rain
It's just rain, rain coming down.
