Bleeding Heart

Curve

Hear my heart,
How it's been beating.
It's taken steps,
It can never retreat in.
Safe and warm,
Now it has meaning.

You can't ever go back.
You can't ever go back.
You can't beat on the door.
You can't ever go back.
You can't care anymore.
You can't care anymore.
You know what it's for.
You can't care anymore.

Watch my tongue,
And it's cruel deleting.
It's eaten words,
That it used to scream in.

You can't ever go back.
You can't ever go back.
You can't beat on the door.
You can't ever go back.
It's not the same anymore.
It's not the same anymore.
You know what's for.
You can't care anymore.

See my heart how it's been bleeding.
See my heart how it's been bleeding.

Should have seen it coming,
Should have done something.
Should have seen it coming,
Should have done something.
Should have seen it coming,
Should have done something.
Should have seen it coming,
Should have done something.

Should have seen it coming. (8x)

Should have done something.
Should have done something
Should have done something.
Should have done something.
