

## Cold Comfort

Curve

Goodbye life Goodbye soul Goodbye party it's time to go The beat it stopped an hour ago The curtain fell it's the end of the show Laying low with my friends The night it calls and we give in It's cold comfort for me Cos all the girls they love to party  
I'll see you all tonight we'll make it big we'll make it bright I'll see you all tonight Dancing in the light It's cold comfort for me Cos all the girls they love to party
