

Hide and Seek

Curved Air

Night time come and lay and hide and seek
(I have got to find you)
Streets to search and I am here alone
(Try to doubt the unknown)
*Walk in the streets
A call your name
And no one comes
Running through the town
I call your name
I know no one here

Shadows forming where the night begins
(Just the breeze comes in)
Doors all closed and window curtains drawn
(All the people are gone)
(* Repeat)

Doors all closed and window curtains drawn
(All the people are gone)
Streets deserted and I am here alone
(Try to doubt the unknown)
