

You Know

Curved Air

You cannot be the same as me girl you know
You will find it works that way
You will find it works that way

There is no saying what is right wrong you know
But you don't like getting hurt
But you don't like getting hurt

Why don't you stand right by my side, saith the man
But don't look back, back at me
But don't look back, back at me

Protect yourself from all things bad, saith the man
Don't include me as being one
Don't include me as being one

Just as much as is good
I would like if you would
Hey you know it's alright
Hey you know it's alright

You cannot be the same as me girl you know
You will find it works that way
You will find it works that way

There is no saying what is right wrong you know
But you don't like getting hurt
But you don't like getting hurt

Just as much as is good
I would like if you would
Hey you know it's alright
Hey you know it's alright

Protect yourself from all things bad, saith the man
Don't include me as being one
Don't include me as being one
