

## A Perfect Day

Cut Copy

My old friend  
Comfort me some more  
Until the end  
You know it wont be long  
We start again  
Erasing yesterday  
And idle smiles  
Just fade, fade away

Running out of luck  
Into the blue  
Falling from the clouds  
Is all we do  
I was waking up  
Covered in dust  
What a perfect day  
To be alive

Morning light  
Stay with me some more  
Like a pulse  
That colours empty walls  
Each mistake  
I made has come to pass  
And now I pray  
There's hope, hope for us

Running out of luck  
Into the blue  
Falling from the clouds  
Is all we do  
I was waking up  
Covered in dust  
What a perfect day  
To be alive

How can we see our way in the dark?  
Don't lose hope tonight  
Ready to burn, all I need is a spark  
Everything now, all that you love
