

Black Rainbows

Cut Copy

I woke up, but was far from home
Living a life that was not my own
Oh, oh
Places familiar but they are not the same
A house of strangers who will know my name
Oh, oh

I wait for the penny drop, hey!
I'm never going to give you up my love
Black rainbows never stop, hey!
I'm never going to give you up my love

Whispers and lies
The ghost in your eyes
They burn paradise
Black rainbows for miles

Turn up the volume all the way it goes
There's only silence on the radio
Oh, oh
Forgot the songs that I used to know
I had it all but I let it go
Oh, oh

I wait for the penny drop, hey!
I'm never going to give you up my love
Black rainbows never stop, hey!
I'm never going to give you up my love

Whispers and lies
The ghost in your eyes
They burn paradise
Black rainbows for miles

If your ever feeling lonely
Don't give up the blue sky
Leave the static far below
That's what you told me oh so many times
