

# Gravity

Cut Copy

Deeper you go, deeper  
In silence, in silence  
Leave all you know, leave it  
Behind us, behind us

You can float with the wind  
There's no need to stand  
Looking down on the world  
Like a grain of sand

Deeper you go, deeper  
In silence, in silence  
Leave all you know, leave it  
Behind us, behind us

You can float with the wind  
There's no need to stand  
Looking down on the world  
Like a grain of sand

There are things that I can live without  
If I had to choose  
But there's a force of gravity  
That brings me back to you

Deeper you go, deeper  
In silence, in silence  
Leave all you know, leave it  
Behind us, behind us

You can float with the wind  
There's no need to stand  
Looking down on the world  
Like a grain of sand

There are things that I can live without  
If I had to choose  
But there's a force of gravity  
That brings me back to you

There are things that I can live without  
If I had to choose  
But there's a force of gravity  
That brings me back to you
