

More Alive

[Cut](#) [Copy](#)

Feel as though I'm here forever
Frozen in time until the train comes
Before you left, moment suspended
All seemed calm until the train comes

You make me feel more alive
I'm in the moment tonight
Past and the future collide
I'm in the moment tonight

I'm standing now, I see the city
Wait by the phone until the day comes
See the glass, bridges, and buildings
I feel the pulse running through me now

You make me feel more alive
I'm in the moment tonight
Past and the future collide
I'm in the moment tonight

Time goes before you know it
Give everything to live in the moment
Time goes before you know it
Give everything to live in the moment
