

When This Is Over

Cut Copy

No sense in holding back, tell me how you feel
Cut you without warning, that was not the deal
You're sharpened to attack, eye deserves an eye
But that won't bring you what you had before

And then you treated them, like they didn't matter
Left them there lying on the floor
You gotta ask yourself, are you any better?
All you do is hurt someone you love

Time after time, but we never learn
Step after step, then we're here again

It's time for moving on, get yourself together
But wounded feeling just won't let you go
You know what's done is done, and it don't really matter
Oh you got to find someone you love

Time after time, but we never learn
Step after step, then we're here again

Oh can you feel it
Time for movin on
Movin'-oh
Oh can you feel it
Time for movin on
Movin'-oh
Oh can you feel it
Time for movin on
Movin'-oh
Oh can you feel it
Time for movin on
Movin'-oh
Oh can you feel it
Time for movin on

One day I'll meet you
Over the water
Mend the cracks in our heart
When this is over
One day I'll meet you
Over the water
We're more the same than you'll ever know
Aaa-aaa-aaah
Ooo-ooh

One day I'll meet you
Over the water
Mend the cracks in our heart
When this is over
One day I'll meet you
When war is over
We're more the same than you'll ever know

Over the water
Over the water
