

Alien Sunset

Cut Worms

If you want the truth
I'd be careful if I was you
You might not like, might not like what you find baby
Might not like what you find baby

Everyone I ever knew
Seemed like they was all a part of you
In your smile, in your eyes, your stare
It's your smile and your golden hair
You knew it took me too long
Yeah you knew, yeah you knew it took me too long

It's to me to find
Oh what to do just to make my way
Back to you now
Waiting for you
I ain't waiting anymore

From the morning sun
Till the evening comes
Oh no, now you're all I think of now baby
Oh no, I think I'm in love now baby

Tried to hold you in a high regard
Tried to hold you but I hold too hard
Every drop in my broken cup
Throw it down, hope I never wake up
When you see me coming walking back from the dead
Yeah you knew, yeah you knew it all in your head

Write me a poem
Don't make it fast
It's clean of sweeping
It's going to last in the high in-vitro
Oh make a stone I could use to
Oh it's in flow

Now I'm down on my knees
Just a-begging please
Oh no, I won't tell you no lies baby
Oh no, look outside baby
All the heroes in your story book
Hanging round with some well known crooks
There's no excuse, it just makes me sad
Well it may be just a passing fad
Yeah but you know that you know it inside
And you know, yeah you know it wouldn't be right
Just to try hold back now
Just can't be done, everybody's laughing
And having fun, I wouldn't care
But now I have to take away
