

God Bless The Day

Cut Worms

God bless the day
That I found my love
Won't be long now till we're off
Gone but never far enough

Between the daybreak
And the end of time
There ain't enough love to be had
But we'll take all we can find

My love's not ordinary
She's immortal ease
She's a worthy adversary
To the morning breeze
You know its come back, coming back, in style
What's not been here for a while
I guessed at it long ago
Now I know that it's so

God ain't it something?
That I made it this far?
All the voices in the dark
Couldn't speak to where we are

God made me tell you
It wasn't my idea
O'er the world, silence fell
So I couldn't help but hear

My love's not voluntary
Yeah I got no say
She's a moonlight sanctuary
Yeah she takes me away
Don't make me come back, open up my eyes
Oh Lord, try me on for size
And all of the seas will shine
With a love that is mine
