

Chloe Enough!

Cxloe

Chloe enough
Everybody else is already having fun
Talking to yourself again haven't you had enough
You know everybody else has already given up
Hey anxiety why do you lie to me

Who's gonna save me
I can't even take me
Who's gonna
Ride for me daily when I go crazy

Who's hands are raising
When I can't stop pacing
Who's gonna
Try try, I, I...

Chloe enough
5 years from now probably shouldn't give a fuck
Say it out loud again haven't you had enough
Letting everybody down and it keeps me up
I know it isn't real but its just how I feel

Who's gonna save me
I can't even take me
Who's gonna
Ride for me daily when I go crazy

Who's hands are raising
When I can't stop pacing
Who's gonna
Try try, I, I...

I'm tryna tell you what goes in the head
Of a perfectionist
Are you listening yet

I'm tryna tell you but you wont understand
Why I rip me to shreds
Thanks for trying I guess

But it isn't enough...
But it isn't enough...
But it isn't enough...
Nothings ever enough...

I'm tryna tell you what goes in the head
Of a perfectionist
Are you listening yet
