Cxloe

Out here in the open, open
I'm so sick of through the motions, motions
Conversations, keep 'em open, open
I-I-I can't seem to close 'em, close

I really wanna make a move
I really wanna be with you
So tell me what you're tryna do

Picking up all your clues
Followed you to the roof
Yeah, I'd make the jump for you, yeah

Here comes the panic
Feeling I thought I forgot
Why can't I have it?
Why can't I put it on lock, lock, lock?
Make the jump for you, yeah

Out here in the open, open
I'm so sick of through the motions, motions
Conversations, keep 'em open, open
I-I-I can't seem to close 'em, close

I just keep on dealing, dealing
Up my soul, cash in a feeling, feeling
Made these doors go flying open, open
I-I-I just wanna close 'em, close

Notice how I'm standing here
Shouldn't that it make it clear?
I'm running red lights and fears

I keep eating out your hand
You say you don't know where I stand
But I don't understand, oh
Oh

Here comes the panic
Feeling I thought I forgot
Why can't I have it?
Why can't I put it on lock, lock, lock?
Make the jump for you, yeah

Out here in the open, open
I'm so sick of through the motions, motions
Conversations, keep 'em open, open
I-I-I can't seem to close 'em, close

I just keep on dealing, dealing
Up my soul, cash in a feeling, feeling
Made these doors go flying open, open
I-I-I just wanna close 'em, close

Open, open
I'm so sick of through the motions, motions
Conversations, keep 'em open, open

I-I-I can't seem to close 'em, close

I just keep on dealing, dealing
Up my soul, cash in a feeling, feeling
Made these doors go flying open, open
I-I-I just wanna close 'em, close
