

Gaslight

Cxloe

You say what you wanted
I take it as honest
And I do what I promise
But your words getting thicker
As the lights get dimmer
And I'm lost down the river

Boy you know what you do
Every word on your lips is a plot twist
Am I the fool?
I'm confused
Must be something I missed
Cause when we kiss it tastes like fuel

You know just how to start a fire
Feels like I'm walking on a wire
Is it me, is it you, who's right?
You know just how to start a fire
Then call me out like I'm a liar
It's not me, all you do is gaslight

I'm the girl on the way down
Going home on the train now
And I'm figuring it out
Everytime that you're near
I second guess what I hear
Wish I knew what was real

Boy you know what you do
Every word on your lips is a plot twist
Am I the fool?
I'm confused
Must be something I missed
Cause when we kiss it tastes like fuel

You know just how to start a fire
Feels like I'm walking on a wire
Is it me, is it you, who's right?
You know just how to start a fire
Then call me out like I'm a liar
It's not me, all you do is gaslight

You say what you wanted (gaslight)
You say what you wanted (gaslight)
You say what you wanted
You say what you wanted (gaslight)

You know just how to start a fire
Feels like I'm walking on a wire
Is it me, is it you, who's right?
You know just how to start a fire
Then call me out like I'm a liar
It's not me, all you do is gaslight
