

## New Trick

Cxloe

I never, I never, I never tried  
I never questioned my own state of mind  
No, that don't add up  
Keep 'em all happy cause that's what I learnt  
Go and I go and I go till it hurts  
And it's all too much

Got to take a moment, unlearn what I know and try to rewind  
Try to be fine...  
Something up my sleeve don't you wanna see all that I've learned  
Haven't you heard!

I got a new trick  
Why'd it take all this time  
I think you're gonna hate it  
Sorry but I'm getting mine  
Said I wouldn't say that  
Apologize too many times  
Me and my new trick  
Got a new trick on my mind...

I'll let em ill, let em ill, let em burn  
Bridges I used to be scared to burn down  
And I'd do it again  
I want you to know  
That I'm capable of  
Whatever I like  
Whenever I like

I got a new trick  
Why'd it take all this time  
I think you're gonna hate it  
Sorry but I'm getting mine  
Said I wouldn't say that  
Apologize too many times  
Me and my new trick  
Got a new trick on my mind...

Got to take a moment, unlearn what I know and try to rewind  
Try to be fine...  
Something up my sleeve don't you wanna see all that I've learned  
Haven't you heard!

I got a new trick  
Why'd it take all this time  
I think you're gonna hate it  
Sorry but I'm getting mine  
Said I wouldn't say that  
Apologize too many times  
Me and my new trick  
Got a new trick on my mind...
