

Shiny New Thing

Cxloe

Am I gonna make it
I've got nothing left to lose
Don't complicate it
Tell me what I need to do

I could let you own me
Your favorite trophy
Please
If your ego's broken
Baby I'll stroke it
Please

I'll be your shiny new thing
Can you see me
I'm cutting my teeth
Going crazy
To be your shiny new thing
Make you love me
I'm begging you please
I'll do things I don't mean
To be your shiny new thing

I'm like a weapon
You shouldn't be afraid to use
I need your attention
It's divided so I split in two

I could let you own me
Your favorite trophy
Please
If your ego's broken
Baby I'll stroke it
Please

I'll be your shiny new thing
Can you see me
I'm cutting my teeth
Going crazy
To be your shiny new thing
Make you love me
I'm begging you please
I'll do things I don't mean
To be your shiny new thing
Can you see me
I'm cutting my teeth
Going crazy
To be your shiny new thing
Make you love me
I'm begging you please
I'll do things I don't mean
To be your shiny new thing
