

Show You

Cxloe

I saw in you a light that read "Go", uh huh
So I followed you, but your body read "No", so stop
Am I being clear? I can show you if you want
'Cause I want what you got

Don't be polite, I'm on your side
Not making moves, say you can't tell my vibe
But I'm holding on tight
Come over tonight, what would you do?
Can't read my vibe, are you gonna make your move?
I can show you if you like

If you want it baby I can show ya
Let me explain as I'm taking it off
If you want it I can get to know ya
If you want it baby I can show ya

If you want it baby I can show ya
Let me explain as I'm taking it off
Let me explain how I feel about us
If you want it baby I can show ya
I can show ya

Try talk it through to make myself clear, uh-huh
But these words don't do what I think of in the dark
Kick me into gear, I can show you if you want
'Cause I want what you got

Don't be polite, I'm on your side
Not making moves, say you can't tell my vibe
But I'm holding on tight
Come over tonight, what would you do?
Can't read my vibe, are you gonna make your move?
I can show you if you like

If you want it baby I can show ya
Let me explain as I'm taking it off
If you want it I can get to know ya
With my hands I can paint it on ya
If you want it baby I can show ya
Let me explain how I feel about us
In my brain, I'm not making it up
If you want it baby I can show ya

If you want it baby I can show ya
Let me explain as I'm taking it off
Let me explain how I feel about us
If you want it baby I can show ya
If you want it baby I can show ya
Let me explain as I'm taking it off
Let me explain how I feel about us
If you want it baby I can show ya
I can show ya

Don't be polite, I'm on your side
Not making moves, say you can't tell my vibe
But I'm holding on tight

Come over tonight, what would you do?
Can't read my vibe, are you gonna make your move?
I can show you if you like

If you want it baby I can show ya
Let me explain as I'm taking it off
Let me explain how I feel about us
If you want it baby I can show ya
If you want it baby I can show ya
Let me explain as I'm taking it off
Let me explain how I feel about us
If you want it baby I can show ya
I can show ya
