

Soft Rock

Cxloe

I dye my hair black, my hands are stained
I try to wash you out of my brain
I take a shot and clench my teeth
Only wanna bite down on it if it's you and me

I, I, I, tell me will I, I, I will
I be alright-right-right-right
Tell me will I

Didn't know it then I was with you
That I was walking into a mistake
And after everything I really shouldn't miss you
But I'm listening to soft rock every day

Since you've been gone, gone, gone, gone, gone, gone
Since you've been gone, gone, gone, gone, gone, gone

It kinda feels like sun in my eyes
I act hard like you just lit a fire under me
And then I drive by c-c-cliché
Guess I gotta ride and ride and ride and ride these waves out

I, I, I, tell me will I, I, I will
I be alright-right-right-right
Tell me will I

Didn't know it then I was with you
That I was walking into a mistake
And after everything I really shouldn't miss you
But I'm listening to soft rock every day

Since you've been gone, gone, gone, gone, gone, gone (Didn't know)
(Into a mistake)
Since you've been gone, gone, gone, gone, gone, gone (You've been gone)
(Soft rock every day)
(Didn't know)
(Into a mistake)
Since you've been gone, gone, gone, gone, gone, gone (You've been gone)
(Soft rock every day)
(Didn't know)
(Into a mistake)
(You've been gone)
(Soft rock every day)
