

Till The Wheels Fall Off

Cxloe

Messing up
But it happens to the best of us
Doesn't mean we ever have to stop
You stay on the edge of every thought

We don't even have to try
You just look me in the eye, do I do
I'll do it for you
You've been my person every time
Right beside my alibis you, its you

Till the wheels fall off
Till we come undone
Up against all odds
Up against your arms
Holding onto you
You know what to do
Full speed, with me

Feelings grow
You're what happens when I'm letting go
Heavens somewhere in the danger zone
I'm what happens when you lose control

We don't even have to try
You just look me in the eye, do I do
I'll do it for you
You've been my person every time
Right beside my alibis you, its you

Till the wheels fall off
Till we come undone
Up against all odds
Up against your arms
Holding onto you
You know what to do
Full speed, with me

I do I do
I told you I
I do I do, until the end of time
Always on your side
I don't need a reason why
