Why you niggas mad, Sammy Sosa, lighten up

Dropped some racks at Avianne and I wore it out the store

See these niggas try to play me off the streets, I can feel it  
Hundred thousand for a show so every ten shows that's a milli

And shall deceive many  
Matthew 24:11"

CyHi, yeah, huh  
I'm ten toes down shoes glued to the pavement  
Married to the streets, I know the rules of engagement  
Moved with the tool and I knew they were hating  
Niggas mad I rose out the blue like I'm Jalen  
I can easily hit my goon with the payment  
Let him do the job, this how I'm used to behaving  
They'll probably snitch and say they knew the assailant  
They'll trade a cigarette and a Mountain Dew for a statement  
And I can't do the state pen for none of ya'll haters  
I ain't in the convo if it don't involve paper, hard labor, huh  
Eat with the pall takers, habitual law breakers  
Quick with the card capers, we dipped when the cops chased us  
Pitchin' the soft got niggas rich as a ball player, medicinal all flavors  
To cover up the smell we shipped it in wall paper, huh  
Rip it open with a sharp razor, yeah  
My OG turned his young Jedi to Darth Vader  
A pound is an acre, they taught us to talk safer  
And all my niggas strapped, get smoked like a Gar-Vega  
While you chilling with your bitch that pull up in broad day her  
So do me a small favor, listen to me wisely  
When you're out here hustling, make sure you do it quietly  
Let your 1911 .45 be your side piece  
There's a thousand ways to die, so we ride with variety  
And stay away from blow, unless they ask you for sobriety  
That white girl will always catch up to you like the Cosby's  
Cause they look at 'caine as a menace to society  
So Craig, don't let Smokey get you smoked on a Friday
