

1.000.000 Fahrenheit

Cyhra

There's a call from the other side
Hear a voice from another life
Like the genie in the bottle
The poet's not the author
Rephrase the words inside
You spread another lie
Do you wanna know
Do you wanna know
Do you wanna know why

So listen up it never stops
Tonight we hang on a wire

Come and sense my fear
Are we parasites
Spin the Ferris wheel
One million Fahrenheit
Come and feel my rage
Let us leave with pride
Set the world alight
One million Fahrenheit

There's a war at the heaven's gate
They believe in a thing called faith
Like a monster in the closet
Like a book without its cover
A child fed by the lies
Of a life that doesn't rhyme
Do you wanna know
Do you wanna know
Do you wanna know why

So listen up it never stops
Tonight it falls apart

Come and sense my fear
Are we parasites
Spin the Ferris wheel
One million Fahrenheit
Come and feel my rage
Let us leave with pride
Set the world alight
One million Fahrenheit

Come and sense my fear
Are we parasites
Spin the Ferris wheel
One million Fahrenheit
Come and feel my rage
Let us leave with pride
Set the world alight
One million Fahrenheit

Come and sense my fear
Are we parasites
Spin the Ferris wheel
One million Fahrenheit

Come and feel my rage
Let us leave with pride
Set the world alight
One million Fahrenheit
