

Ashlight

Cyhra

Wake up, get ready
Wake up, get ready
Wake up, get ready
Wake up, get ready

You come alive from nothing and explode like a maroon
Your parents praise your first step like you're Armstrong on the moon
And even if you question what's the reason of it all
They say you've got a purpose yet you feel that you're a doll

You learn to love life
Balancing on thin ice
Tell me what's my narrative
You learn to fear life
Wait! Is there an end?
Why can't there be alternatives?

Catch me when I fall
I'm about to drown
I'm lost no solid ground
Save me from my life
You know I view the world through ashlight
Catch me in my pride
How can I defy
Blind leading the blind
Truth that I deny
You know I view the world through ashlight

Listen up
Tell me why I'm here
Hear me out
Why we disappear
Will echo 'til death do us part

You say I love life
Yet living out on thin ice
What do you really want from me
You say I fear life
Wait! Is there an end?
Why can't you get away from me

Catch me when I fall
I'm about to drown
I'm lost no solid ground
Save me from my life
You know I view the world through ashlight
Catch me in my pride
How can I defy
Blind leading the blind
Truth that I deny
You know I view the world through ashlight

Ashlight
Ashlight
Ashlight
Ashlight

Catch me when I fall
I'm about to drown
I'm lost no solid ground
Save me from my life
You know I view the world through ashlight
Catch me in my pride
How can I defy
Blind leading the blind
Truth that I deny
You know I view the world through ashlight

Oh hello
Never let me go
Help me up
Guide me through the fall
Open up my eyes to the ashlight
Oh not now
Why why I
Let me stay away from the ashlight
