

Hold You Down

Cymphonique

Baby I'ma hold it down for you
You keep it 100, for all we been through
Can't other do me like you do
Got me catching feelings I'm so into you
Oh Woah, you got me wanting more and more
You mean everything I mean everything to me

It so real, really real how I feel about you
When I wake up in the morning
Your the first thing on my mind
Cause I want you and I need you
Gotta have you your a keeper
They can't came in between us
We don't need em
Can't lie I'm trying to see you on
My facetime. cause I'm trying to get close to you
Just keep it real like your supposed to do. (Yeah)

Baby I'ma hold it down for you
You keep it 100, for all we been through
Can't other do me like you do
Got me catching feelings I'm so into you
Oh Woah, you got me wanting more and more
You mean everything I mean everything to me

Don't tell me just show me if you really really want me
Don't tell me just show me if you really really want me
Cause baby your the one for me and right here is where
Your suppose to be oh baby your so sweet to me
And when your not around I want you here with me
I've been trying tell you

Baby I'ma hold it down for you
You keep it 100, for all we been through
Can't other do me like you do
Got me catching feelings I'm so into you
Oh Woah, you got me wanting more and more
You mean everything I mean everything to me
