

## Drinks

CYN

He got mad, so I got drinks  
No I'm not walking around in circles worried about what he thinks  
Out with my friend, drinking a drink  
Alexa knows the bartender, so all the drinks are free  
He got mad, so I got drinks  
Yeah some shit went down, so now I'm up for anything  
Out with my friend, drinking a drink  
I don't know what the problem is  
I don't think it's me

First things first, yeah I know it's a bummer  
That's right, it started with one that turned into another  
You know I won't fake it or keep it under cover  
And with it all out in the open, I can be me again

Taking a band aid and ripping it off  
Wish that I could but I can't care at all  
House made of cards and it's starting to fall does it feel like I'm sprinkling salt?

He got mad, so I got drinks  
No I'm not walking around in circles worried about what he thinks  
Out with my friend, drinking a drink  
Alexa knows the bartender, so all the drinks are free (yeah)  
He got mad (so mad), so I got drinks (some drinks)  
Yeah some shit went down, so now I'm up for anything  
Out with my friend (my friend), drinking a drink (drink drink)  
I don't know what the problem is  
I don't think it's me

Feeling like it's automatic  
Everything is so dramatic  
Silver screens and movie scenes  
Don't make it so cinematic  
Nothing's ever picture perfect  
Happy endings can be tragic  
As soon as it's over, I can be me again

Taking a band aid and ripping it off  
Wish that I could but I can't care at all  
House made of cards and it's starting to fall does it feel like I'm sprinkling salt?

He got mad, so I got drinks (some drinks)  
No I'm not walking around in circles worried about what he thinks  
Out with my friend, drinking a drink (no no no no)
